

Z-LOCKERS

Z-LOCKERS

SOLID LOCKERS FOR SCHOOLS, SPORTS CENTRES OR SWIMMING POOLS.

The Z-locker gives you twice as many storage units as ordinary lockers, and fits particularly well in sports centres and swimming pools. The Z-lockers come in two designs. The first is of standard steel quality with double steel doors, and the second has a more solid steel body with a 16 mm MDF core. A layer of 1 mm high pressure laminate is glued to both sides of the laminate doors (18 mm total) and the doors have cut lacquered edges. Both lockers have the same available space for storing clothes, and the depth of 55 mm gives ample room for bags, backpacks etc. The lockers are well ventilated through the partition wall between the plinth and the body.

Door:

of a 16 mm MDF core. A layer of 1 mm high pressure laminate is glued to both sides of the laminate doors (18 mm total) and the doors have cut lacquered edges.

Lock:

The lockers are available with several locking systems: catch for padlock, coin lock, cylinder lock, code lock or card lock.

Fittings:

The lockers are fitted with an anchor hook and towel peg as standard. Book units, shelves and clothing rails are available as extras.

Base:

Plinth, height 135 mm
Legs, height 200 mm
Base with bench: floor mounted, height 395 mm, or wall mounted.

Made-to-measure lockers:

All our lockers are manufactured in-house, and we are able to provide made-to-measure products to suit our clients' needs.

Colours:

 Standard colour body is Light grey, RAL 9002.

Locks

The lockers are available with legs which can easily be pushed in through a recessed track, and then secured with a bolt. The legs, which are 200 mm high, come with adjustable screws. All lockers with legs come with a perforated base.

Wall mounted bench. For lockers without legs, the bench is attached to the locker's base. These lockers are attached to the wall by a plate on the back of the locker.

Locker with legs.

Bench with shoe rack.

Base with an attached bench are available for all locker combinations. The solid square legs carry both the locker and the bench. Height adjustment screws come as standard.

Locker with plinth.
